DIGITAL EDUCATION & LEARNING LAB

"Language does not belong to the intellectuals, the scholars, philosophers and readers of many books, but to the common people"

- William Wordsworth

Modern world thrives on competition, consumerism and communication skills. Today it is extremely important for the students to gain mastery over English Language and get a proper training in Reading, Speaking, Listening and Writing skills. The need of the hour is to transform the students in such a way that they can compete as front runners at the national and international level. Education & Learning Lab set up in the college campus is effective because the students are able to practise at their own pace. It is a boon for them as they can develop their command over spoken English with correct usages and pronunciation. It is equipped with computers, web cameras and head phones.
